I agree with the Council that all new housing developments should be built for the future, with high sustainable design standards. For example, we should be able to develop this site to offer:

an all-electric site with NO GAS

a renewable energy power hub that maximises onsite solutions such as solar panels, battery storage and microgrid

a comprehensive waste separation and residential and commercial composting and/or anaerobic digestion

best practice water sensitive urban design;

planting to reduce the urban heat island effect; and

electric vehicle and undercover bike parking for both residential and commercial uses.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice
