I am writing to express my concern that the redeveloped Preston Market needs to be more committed to green open spaces that improves the amenity of a central block in Preston that is also the gateway to the Preston station. The hard surfaces and lack of natural shade must be more fully addressed and the proposed high rise towers of up to 20 storeys must be rejected to something more modest and sustainable and in keeping with the surrounding neighbourhood. The buildings should be built in the most sustainable way possible that restores the natural environment rather than degrades in further. In addition ,the design must recognise that this is a community gathering point and that bikes and pedestrians must feel safe in the area.

I confirm that I have read and agree to the above conditions for making a submission.
