**[REDACTED] your submission**

My family attends Preston Market every week. It is a vital part of our Community and must be maintained. We support the redevelopment of the site as long as it maintains the existing market: provides adequate parking (more than there is now); includes minimum 30% affordable and public housing (diversity must be protected); includes new trees and other plants on the area: and meets the highest sustainability standards to plan for a warming climate. As a Darebin resident I endorse the councils position for the site to require (mandatorily)::

- an all-electric site with no gas:
- a renewable energy power hub that maximises onsite solutions such as solar panels, battery storage and micro grid:
- a comprehensive waste separation and residential and commercial composting and/or anaerobic digestion;

best practice water sensitive urban design;  
planting to reduce the urban heat island effect; and  
electric vehicle and bike parking for both residential and commercial uses.

It would also be good if we could raise the bar on design standards. The current apartments and townhouses going up in the area are an eye sore which permanently impact the look and feel of the area. We can do better surely?

**I confirm that I have read and agree to the above conditions for making a submission.**

Yes

**I agree to the Collection Notice**

Yes
