Write your submission

I am very concerned that priority has been given to cyclist, public transport users and walkers for access the market. You have totally ignored the families that live in the community who are probably too busy to respond to your consultation. Most of these groups would use a car as their methods of transport to and from the market. In my street there are mostly small families, not one of them rides to the market to do their shopping. Using a bike is very dangerous and a health hazard for transporting the produce.

Ensuring there is sufficient parking, exits and entrances and traffic management should be a priority. Most cars use cramer street to avoid the buses on murray road, so why is this not going to be accessible? Have you looked at a cyclists spend at the market in comparison to a growing family? This would be very different.

This is a community market where different groups of people, elderly, disabled, families, regional visitors that come from faraway. Going to the market requires transport, to transport

the produce, dairy, meats and seafood, many of these are perishable, and cycling is not an option, nor safe. You have not considered key users of the market, such as families, cyclists seem to be prioritised in this plan and this will impact on the viability and sustainability of the market into the future.

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
