I oppose the current development proposal for Preston market as lacking environmental considerations and being of character for the area. We can do so much better in terms of environmentally sustainable design and the proposal drastically changes the current and much loved character of the market precinct as an open air market (which has been a godsend during covid). Please reconsider these plans to make any development more environmentally sustainable and to retain the market as an open air market

I confirm that I have read and agree to the above conditions for making a submission.
