**Subject:** Preston market redevelopment

As a Preston resident and one who lives across the market I am deeply opposed this monstrosity for so many reasons.

I will do all that I can, and so will approx 99% of the Preston residents be opposed to this and fight till the plans are thrown out entirely.

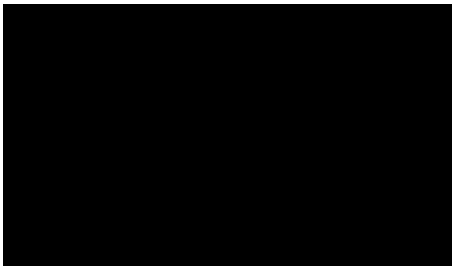

The market as it is, is the forefront of why people have moved here. We don't want 2200 resident apartments built atop looking like a CBD building tower eyesore casting a shadow over the best part of Preston.

We don't want affordable housing in the heart of our suburb.

We don't want these already traffic filled roads that barely move on market days to come to longer standstills.

Enough of this ridiculous money grabbing development and for once actually have a thought of what damage you would be doing to the suburb and it's people.
