---

Hello,

The proposed development is vastly inappropriate and insensitive to our local area. The proposed 10% of open space is inadequate and the size of the development will cause shadow to be cast over large amount of the space. The market should stay where it is and the developer should absolutely not be able to build on top of the existing site. This is clearly a shameless cash grab with zero consideration for the local area, which I'm sure will be ugly, cheaply made, non-sustainable and damaging to our community. My family and I strongly oppose this development.

Yours sincerely
