Dear Sir/Madam

I want to protest at the proposed planning rules for the Preston Market area.

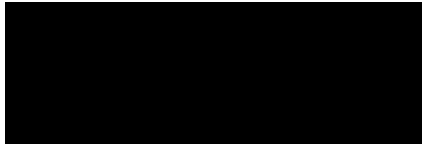

I think it allows way too much building, both in footprint and in height.

The new station will be letting out into this area and I think the plans make for an unsafe and unpleasant environment for those exiting the station.

It also seems to be an ideal formula for a wind tunnel.

There are numerous high rise towers in the area which provide housing in this market. This proposal is overkill.

Preston is a suburban area.
