To whom it may concern,

I am writing to object to this project.

I have several major concerns about the plans that haven't been addressed.

Aside from the eyesore that 30 store buildings will be or how it will effect my property value, Preston does not have the infrastructure to support the project or more people.

Not addressed:

Roads, there are no effective roads in Preston to move people into the city or even locally.

Local roads are already bloated.

Trains, there is not enough services to support the increase in population. Additionally there are physically not enough trains in Melbourne to increase services on this line. Additionally

the signalling system Victoria uses means peak hour services can not be safely increased. Furthermore, ageing electrical infrastructure increases the likelihood of the suburb being overloaded.

These issues in my opinion makes this entire project unfeasible.

Thank you
