Write your submission

I would really love to see Preston Market becoming more environmentally sustainable and for developments to be in line with addressing the climate emergency. That is, we need to put measures and programs in place that support businesses and customers to reduce and eliminate waste (no single use plastics, overall plastic reduction program, food waste and organics collection and composting program - and lots of great promotion and education about these zero waste initiatives). Also a plan for 100% renewable energy for the preston market. This includes a plan for reducing and eliminating gas consumption/demand at the preston market.

an EV charging station and better bike facilities are also important.

I want to continue to be proud of our preston market and this is an important opportunity for our central cultural and community space to be a leading space in addressing climate and sustainability.

thanks you,

I confirm that I have read and agree to the above conditions for making a submission.

Yes

I agree to the Collection Notice

Yes
