

## 4 Summary: WHEN AND HOW – The VPA's communication with you as the project evolves

The PSP 2.0 process has multiple stages. The below table outlines those various stages and what you can expect.

In addition, significant project milestones will be added to the project page on the VPA website, which should be treated as the accurate and most up to date information available on a project. These updates will be made at a minimum every two months and you will be notified of that update via email.
