Dear Deanne

Greenvale North PSP Part 2 ecological advice: EVC mapping

Our ref: Matter 38699

Regarding the area referred to as HZ1 in the Greenvale North R1 native vegetation precinct plan (NVPP) (GAA 2011) our letter of 5 April documents that this habitat zone does not exist and is actually a misrepresentation of a different ecological vegetation class (EVC) in a different location.

We accessed the subject land again to refine our vegetation mapping on 21 July.

Vegetation on the subject land is shown in Figure 1.

A data shape file is attached.

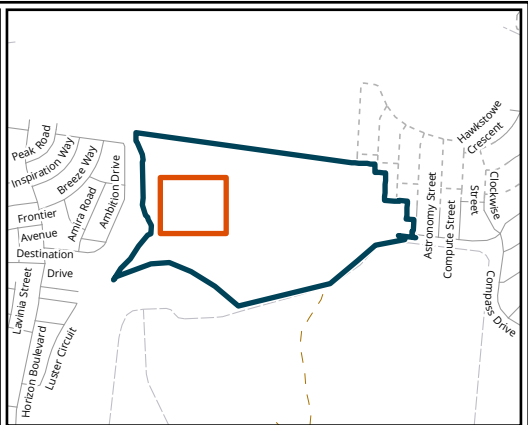

Please contact me if you have any enquiries.

Regards

Dr Jeff Yugovic

Senior Associate Ecologist
