

Croskell (Employment) Precinct Structure Plan	
Submission ID	1266095
Q1. You can enter your submission	<p>It's important that Council strongly advocates for infrastructure upgrades to manage the Croskell Precinct development and its impacts. We need more employment prospects in our area and an increased rates revenue base from industrial/commercial usage is good, however concerns of the impact on residents in Cranbourne North are very valid too. Both Thompsons Road and Clyde Road would need a significant upgrade if this goes ahead.</p> <p>Any sort of disturbances to the residents due to construction activities should also be addressed. Especially safety of people due to construction vehicles movements.</p>
Q2. You can upload your submission	
Q3. What is your full name?	
Q4. What is your postal address?	(outside of the PSP)
Q5. What is your email address?
