1316766				One of the most attractive elements of living in a regional area like Bannockburn is the available space for families and outdoor activities. To maintain this experience it would be nice to see a minimum block size in developing the new estate. If more than 80% of blocks were at least 750sqm this would allow for a small number of higher density living properties while the majority of the town maintains an open, outside focused community where kids have space to play in their backyards, and adults have space for outdoor activities.	2025-05-15 19:24:21
1316771				<p>While aquatic facilities are expensive to build and maintain, Bannockburn seems like an optimal region for an indoor or outdoor pool. With no aquatic facilities less than a 30 minute drive from Bannockburn, a growing population and the ability to service multiple smaller surrounding towns there is potential for strong demand. Being only 40 minutes from the surfcoast swimming skills forest children and adults in the region are a critical life skill.</p> <p>Expanding on sporting facilities, greater flexibility in indoor sporting facilities allowing for sports not currently available in Bannockburn to be undertaken at youth and adult levels would be a great addition to the town.</p>	2025-05-15 19:29:06
