

Project: **Bannockburn South East Draft Precinct Structure Plan**

Submission ID	Q1. What is your full name?	Q2. What is your email address?	Q3. What is your postal address?	Q4. You can enter your submission	Date
1321426				<p>Further to my previous submission I find that once again you have avioded the main problem ie Burnside Road!! the souther end is a goat track with a dangerous meeting with the Hamilton Hwy. My end High St end will suffer from a massive increase in traffic with increased noise etc-Also as the ammount of traffic will be huge how do we get in and out of our driveway?-perhaps midnight would be the best time. Until the proposed east west road is constructed we'll have to suffer but NOT in silence!! At the earlier plan the Eastwest road was supposed to be constructed by now.</p> <p>As regards Barwon Water could they advise me of where the extra water required for the development will come from?</p> <p>Giving the GPS the ability to reduce the commercial space at whim is another recipe for disaster-look at the current state of affairs at Bannockburn Central--I also have concerns that your esitimate of jobs is fanciful at best-however given a couple of decades it might work out. Lastly while public transport is a major part of the plan does the rest of Bannockburn get PT or is it only for the SE.??</p>	2025-06-02 15:43:28
