Dear Noor,

I hope this message finds you well.

I am writing to request consideration for the introduction of public transport services in Bannockburn. As a growing regional community, Bannockburn lacks access to regular and reliable public transport, which limits mobility for many residents—particularly students, seniors, and those without access to private vehicles.

Improved public transport options would significantly enhance accessibility to education, employment, healthcare, and other essential services in nearby areas such as Geelong. It would also help reduce traffic congestion and support environmentally sustainable travel.

I kindly ask your team to review the current transport infrastructure in Bannockburn and assess the feasibility of adding bus or rail connections that can meet the needs of the local population.

Thank you for your time and consideration. I would be happy to provide further input or support any community consultation process that may take place.

Warm regards,
