Subject: OFFICIAL: RE: [SEC=OFFICIAL] GAEP - Public Consultation Follow up

Hi [REDACTED]

I've reviewed the background document and note the reference to replacing Extractive Industry Interest Areas with job-creating and investment-generating activities within the Greater Avalon Employment Precinct.

This reflects the outcomes of discussions between Resources Victoria and other members of the Geelong Projects Steering Committee in 2023.

It is important for VPA to acknowledge that the remaining EIAs north of Princes Highway north of the precinct will continue to remain in place for future extractive industry opportunities.

If you have any questions in relation to this matter, please contact me to discuss.

Kind regards,

[REDACTED]
