

Project: Bendigo Regional Employment Precinct

ID	Q1 Name	Q2. Email	Q4. Submission	Date
[REDACTED]	[REDACTED]	[REDACTED]	<p>It will be important that if an industry uses the site for handling bulk goods (i.e. grains, hay etc), provision should be made for rail access. This could be done with a spur line West of Marong connecting to a reopened Inglewood-Eaglehawk Railway line. Failure to do this will result in excessive truck traffic and road degradation in the area and beyond.</p> <p>Also, given the forecast employment numbers, good public transport to the site must be including in the planning process.</p>	03/12/2025
