This includes all lights purposeful, rather than decorative; lights shielded and aimed at the ground; external lights on motion sensors or timers; the ability to dim the lights; low intensity, warm lighting rather than bright white LEDs; and billboard lighting turned off after hours. Please also ensure that parking areas are also included in the planning and that they also adhere to the required standards, in an effort to reduce light pollution.</p>		06 March 2026 4:43PM
