

To Whom It May Concern,

I am the landowner of [REDACTED], located within the Bendigo Regional Employment Precinct (BREP) and directly impacted by the proposed rezoning plans.

The current proposed plan indicates that my property is to be rezoned into Industrial 1 and Industrial 3. I am concerned about the noise impact that industrial enterprises will have on my home and quality of living. I am also concerned of the possibility of a road being placed on my land and dividing it into two parts, as this would also have a large noise impact, and would negatively affect my ability to continue farming the land.

As this is an ongoing process with regular changes to plans, I wish to be updated and informed upon any proposed changes to plans involving my property and the wider BREP project.

Kind regards,

[REDACTED]
